

Safety is no accident

Our new Safety Socket range exceeds safety standards, ideal for domestic and commercial environments where improved safety features are beneficial.

Safety Sockets

Double Pole switching
as standard

(Twin/Clean earth available)

Unlike conventional socket shutters inserting the earth pin alone will not open the live and neutral shutter, all 3 pins of a BS1363 13A UK plug must be inserted before the safety shutter will open.

Ultimate Electrical Protection

Our Safety Sockets are ideal for Healthcare,
Social Housing and School Installations.

Currently available in our Mode®,
Part M™ and Metal Clad ranges.

Antimicrobial Certified Products

Mode® and Part M™ Safety Sockets are manufactured using Urea Formaldehyde, which has similar inherent properties to antimicrobial additives that inhibit the growth of infectious diseases. Products independently tested achieved a 99.99% kill off rate across all four types of the strains of bacteria - MRSA, E-Coli, Salmonella and Klebsiella Pneumoniae.

20 Year No Quibble Guarantee

Mode® and Part M™ are covered by our straight forward 'No Quibble Guarantee' against any fault in materials or manufacture experienced at any time within 20 years of the date of supply.

Our new safety sockets add to our extensive product range for a complete safety solution.
